CLOUD PRINTING

PIXMA / MAXIFY CLOUD LINK*1

Print From Any Location
 Print your files directly from social networking platforms and cloud storage services, including Evernote, Dropbox and Google Drive.
 *1 PIXMA/MAXIFY Cloud Link scan-related applications are only available to users that use genuine Canon ink cartridges.

GOOGLE CLOUD PRINT™

Google Cloud Print Ready

Print photos and documents stored on Gmail™, Google Drive, and web pages on Google Chrome™.

Note: Google Cloud Print™ is a registered trademark of Google Inc.

APPLICATIONS:

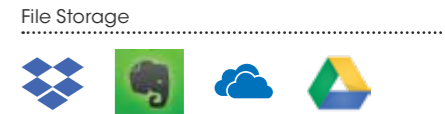

1 SCAN AND SEND PRINT

Through PIXMA / MAXIFY Cloud Link, you can scan your documents and images on one printer, and receive the printouts on another.

2 SCAN TO CLOUD

Upload your scanned files directly to cloud storage, or send them directly to your email inbox with the Scan to E-mail feature.

ACCESS PIXMA / MAXIFY CLOUD VIA CANON PRINT INKJET / SELPHY

* Features shown are only available in certain models. See specifications for details.

FUNCTIONS:

1 LAYOUT PRINTING

Organise two or four images within a single sheet before printing.

2 MANAGE MULTIPLE PRINTERS

Companies can register up to 10 printers under one Cloud account, allowing printers to be assigned to individuals, and managed as a group.

3 MANAGE APPS

This feature allows you to create a list of favourite applications for easy access.

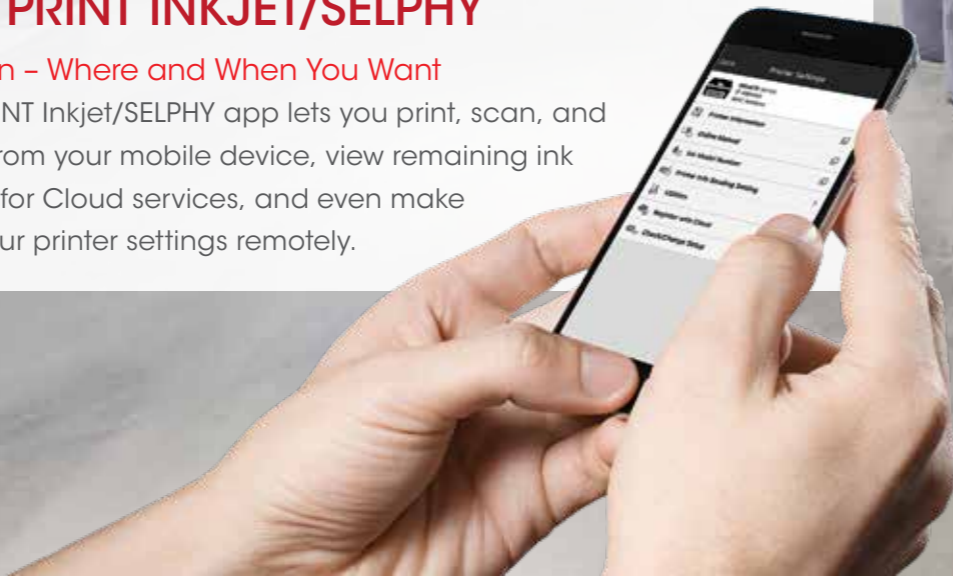

MOBILE PRINTING SOLUTIONS

CANON PRINT INKJET/SELPHY

Print and Scan – Where and When You Want

The Canon PRINT Inkjet/SELPHY app lets you print, scan, and copy directly from your mobile device, view remaining ink levels, register for Cloud services, and even make changes to your printer settings remotely.

Scan QR code to download
Canon PRINT Inkjet/SELPHY app

Visit: www.canon-asia.com/mobileprinting
for more information!

FUNCTIONS*:

DISC LABEL PRINTING[^]

Design and print disc labels*¹ from your mobile device directly onto discs with printable surfaces.

PHOTO AND DOCUMENT PRINTING[^]

Print photos directly from your mobile device or any Microsoft Office, PDF document stored in your device.

SCAN TO MOBILE DEVICES[^]

Scanned images can be saved directly to your mobile device or iCloud[^].

SMARTPHONE COPY[^]

Capture a document image with your mobile device, with the edges detected automatically and cropped before printing.

BLUETOOTH LOW ENERGY (BLE)

Bluetooth Low Energy (BLE)*² assists with setup for wireless printers, and allows status notifications to be seen on the Canon PRINT Inkjet/SELPHY app, even when the printer is not in use.

MOPRIA[®] CERTIFIED

Enjoy wireless printing from Android devices without having to download third-party applications or install drivers.*³

CANON PRINT SERVICE (ANDROID)

Print photos and documents straight from your Android OS device to any Canon wireless printer with the Canon Print Service*⁴ plugin, without having to download any printer-specific mobile apps.

DIRECT PRINTING

Photos taken with a wireless PictBridge-enabled camera can be sent over a local wireless network directly to your printer for printing.*⁵

WIRELESS DIRECT

Connect your mobile device directly to your wireless printer and print without the need for a wireless router.

AIRPRINT[™]

Print photos, documents, web pages, and emails from your iOS*⁶ devices without having to install any vendor-dependant applications.

* Features shown are only available in certain models. See specifications for details.

¹ Disc Label Print app must be downloaded from Apple App Store or Google Play Store and only available in certain models.

² The functions available with Bluetooth communication of this application are not guaranteed on all Android smartphones.

(Even if smartphone meets the above operating requirements, Bluetooth communication may not be possible depending on smartphone model.)

³ The Mopria logo is a trademark of Mopria Alliance, Inc. Available on Android OS 4.4 and above. Firmware update may be required.

⁴ Available on Android OS 4.4 and above. Please visit www.canon-asia.com/mobileprinting to check device compatibility.

⁵ Both the PIXMA printer and camera must support DPS over IP.

⁶ iPad, iPhone, iPod and iPod Touch are trademarks of Apple Inc., registered in the U.S. and other countries. AirPrint and the AirPrint logo are trademarks of Apple Inc.

[^] Illustration is based on iOS devices. iCloud is only available on iOS devices.

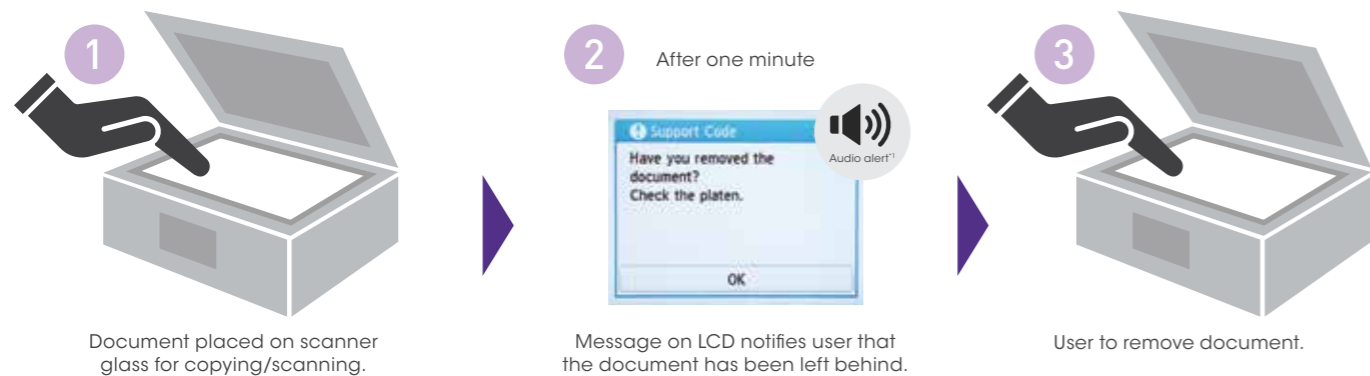

All screen captures are conceptual.

EASE OF USE

DOCUMENT REMOVAL REMINDER

When a document is left on the scanner glass, a notification on the LCD display and an audio alert reminds the user to retrieve the forgotten document (after scanning or copying).

FULL TOUCH-SCREEN OPERATION

Touch Screen Large colour touch-screen display panel allows easy manual navigation to control the printer, making operation smooth and simple.

BOOKLET LAYOUT COPY

Booklet Consolidate bulky document stacks into neatly bound booklets as small as A5 size for easy handling.

* Features shown are only available in certain models. See specifications for details.
 ** Audio alert is only available in certain models.

ADVANCED MEDIA HANDLING

Front / Rear Paper Feeding Accommodates different paper sizes/types simultaneously. Also supports instagram-ready prints and business card printing.

Direct Disc Print PIXMA printers are able to print images directly onto Blu-ray discs, CDs and DVDs with printable surfaces.

Auto 2-sided Print Save on time and resources by printing on both sides of the paper automatically.

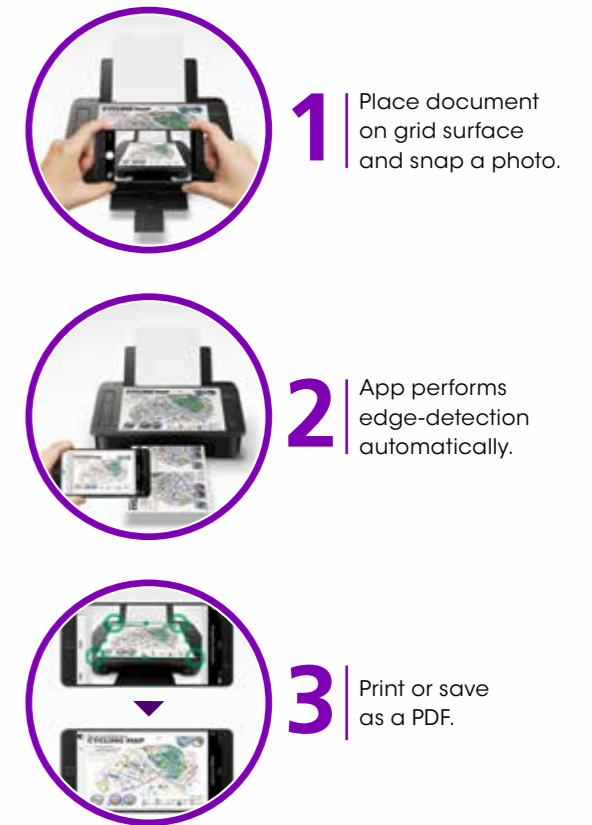

ID CARD COPY Scan and copy a double-sided ID card onto a single printout while retaining the original card size.

Smartphone Copy **WIRELESS PRINTER WITH SMARTPHONE COPY**
 PIXMA TS307 combines form and function with a flat-top surface that doubles up as a document scan table. Now anyone with a smartphone can make high quality copies easily.

COPY DOCUMENTS WITH YOUR PHONE CAMERA

Download Canon PRINT Inkjet/SELPHY (iOS/Android), select 'Smartphone Copy*' and begin.

*Smartphone Copy function is also available in all Canon wireless printers that are compatible with the Canon PRINT Inkjet/SELPHY mobile app.

ECO TIPS

Quiet Mode Reduces printer noise to an absolute minimum.

Auto Power On Wakes the printer instantly when a print job is initiated, even when it is powered off*.

Auto Power Off Conserves energy by automatically powering off your printer after a period of inactivity.

*Printer must remain connected to an AC power source.

PRINTER BUYING GUIDE

Print Choices at Your Fingertips

The Canon Printer Buying Guide is a free mobile app that helps you to choose your ideal inkjet printer or scanner. View key features and compare your favourites side-by-side, and estimate the running costs over a printer's lifetime usage. You can even order your ink online!*

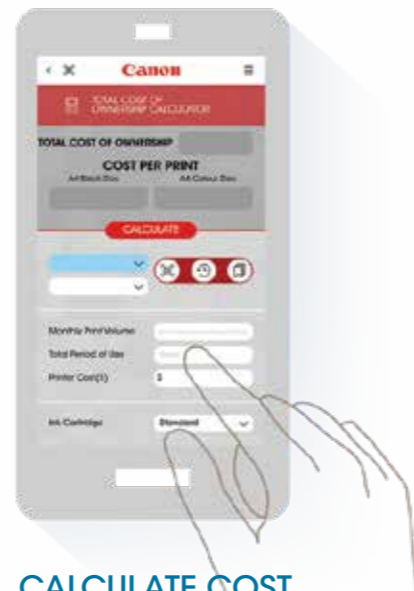

SEARCH BASED ON YOUR NEEDS

Access key information such as ink cartridge yields, printer features and more at a single glance.

COMPARE BEFORE BUYING

Compare features and capabilities of selected printers and decide which best suits your needs and expectations.

CALCULATE COST OF PRINTING

The Total Cost of Ownership (TCO) Calculator gives you an estimated cost of printing, based on the printer model and frequency of usage.

* User will be led to Canon E-stores in web browsers. Available in specific regions only.

Available on the App Store
For iOS Devices:
 Requires iOS 8.0 or later. Compatible with iPhone® / iPad® devices. Apple, the Apple logo, iPhone and iPad are trademarks of Apple Inc., registered in the U.S and other countries. App Store is a service mark of Apple Inc.

GET IT ON Google play
For Android Devices:
 Available for devices running Android™ 4.4 and above. Android, Google, Google Play and other marks are trademarks of Google Inc.

PRINTER PURCHASE CHECKLIST

Budget

WHAT IS THE BUDGET?

This question provides an indicative price bracket for your preferred printer. Many people make the mistake of allowing their purchases to be limited by their budget. It is worthwhile considering a slightly bigger investment in the beginning in order to get the features you need to reap the benefits of enhanced productivity.

Print Volume

WHAT IS THE MONTHLY PRINT VOLUME?

It is important to understand the number of pages you expect to print every month. This will help you gauge print expenses and how often you need to replace the consumables.

DOES THE OFFICE NEED A MULTI-FUNCTION PRINTER?

Multi-function printers are becoming more affordable than ever, but business owners should consider their real needs carefully. With a similar investment, a dedicated single function printer can be more powerful than a multi-function printer. They can be faster and offer productive features such as automatic 2-sided printing or high-capacity paper cassette trays. It is advisable to take long term costing into consideration when choosing a printer.

Colour Mono

IS THERE A NEED FOR COLOUR PRINTING?

Most documents are perfectly legible and presentable when printed in black-and-white. Business owners will need to examine the needs of the office to understand if there is a need to print in colour, and how often. The cost of printing in colour is approximately four times more than printing in grayscale or monochrome, and can be expensive if the print culture in the working environment sees documents get printed out of convenience, rather than out of necessity. Some business printers are intelligent enough to deploy only black ink to produce shades of true-black, rather than mixing cyan, magenta and yellow colours to produce composite black. It would be advisable to check with your printer retailer to find out if the printer you intend to purchase has such cost-saving features.

Ethernet Wi-Fi CERTIFIED

EXAMINING THE NEED FOR WIRELESS CONNECTIVITY

It would be prudent to examine the office document printing workflow to understand if wireless functions are really needed, or if wired LAN connectivity would suffice. For offices with mostly deskbound employees, the need for wireless connectivity diminishes. This is especially important when printers with wireless connectivity often have a higher upfront cost than the wired Ethernet-only models.

Environmental Regulations

IS THERE A NEED TO COMPLY WITH ENVIRONMENTAL REGULATIONS AND STANDARDS?

In some companies, there is a need to conform to certain environmental regulations such as Energy Star, and TEC (Typical Electricity Consumption) ratings. Such information can usually be found in product brochures.

Sheet Capacity

IS THERE A NEED FOR ADD-ON COMPONENTS OR ACCESSORIES?

If business owners foresee an increase in print volume, it might be useful to consider a printer that offers a large paper input capacity for 250 sheets, or even 500 sheets.

* The Wi-Fi CERTIFIED logo is a registered trademark of Wi-Fi Alliance.

MAXIFY

MAXIMUM PERFORMANCE

Boost business productivity and power your way through intensive office tasks with our range of MAXIFY printers.

INK EFFICIENT G SERIES

High Page Yield

HIGH PAGE YIELDS WITH LOW PRINT COSTS

The Ink Efficient G Series printers are designed for high volume printing, and are able to print up to 6,000 pages in monochrome and 7,000 pages in colour.

SPILL-RESISTANT INK BOTTLE DESIGN

The ink bottles come with special tip designs that prevent spillage during ink refilling.

REFILLABLE INK TANK SYSTEM

Integrated see-through ink tanks allow users to view remaining ink levels easily, and contributes to the compact printer design.

HIGH QUALITY PRINT

Borderless Photo Printing

Print beautiful borderless photos up to A4 size.

Sharp Black Text

The use of Pigment Black ink delivers crisp and clear black text suitable for professional presentations and reports.

IDEAL FOR SMALL OFFICES

HIGHER CAPACITY PAPER CASSETTES

500 Sheet Capacity

Double your productivity with high capacity paper cassettes. MAXIFY printers can feed up to 500 sheets for continuous, uninterrupted printing.

HIGH SPEED, GREAT QUALITY

Documents can be printed at remarkably high speeds*1.

MONO	COLOUR
Maximum Print Speed (ppm)*2 32.5 ppm	Maximum Print Speed (ppm)*2 26.5 ppm
ISO Standard Print Speed (ipm) 24.0 ipm	ISO Standard Print Speed (ipm) 15.5 ipm

DUAL RESISTANT HIGH DENSITY PIGMENT INK

Produce long-lasting prints with DRHD pigment ink. Crisp and sharp text, highlighter and water resistance are key attributes that will make a positive impact on professional reports and presentations.

QUICK FIRST PRINT

Receive your first printout in just 6 seconds with fast data processing.

AT LEAST 50% LOWER COST PER PRINT WITH XL INK CARTRIDGES

With the optional high-yield XL ink cartridges, enjoy at least 50% cost savings while printing up to 2,500 pages in monochrome and up to 1,500 pages in colour.

INK CARTRIDGE TYPE

PAGE YIELD+^

BLACK	COMPOSITE COLOUR
Approx. 2500 pages	Approx. 1500 pages

HIGH SPEED SCANNING

Reduce scanning time with the fast, single pass, 2-sided Auto Document Feeder (ADF). Scan double-sided documents in one single paper pass.

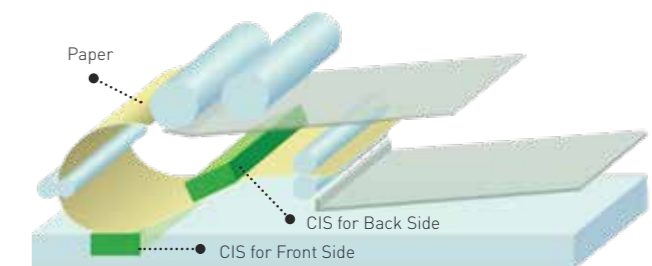

Diagram shows placement of both Contact Image Sensors (CIS) for enhanced scanning speed.

* Features shown are only available in certain models. See specifications for details.

* Features shown are only available in certain models. See specifications for details.

+ Page yield may differ depending on the document and other conditions related to the print.

^ Published value based on ISO/IEC 24711 when printed consecutively on regular A4/letter papers with standard picture settings. Evaluation pattern: ISO/IEC 24712.

*1 Printer speed decreases when ink is running low (upon display of the low ink status).

*2 PPM print speed is based on the highest speed settings using Canon standard patterns on A4 plain paper.

For details, please refer to www.canon-asia.com/maxify

With Easy-PhotoPrint Editor, you can create customised calendar and many more!

With up to 45 built-in patterns, finding the perfect craft paper has never been easier!

TOOLS FOR CREATIVITY

EASY-PHOTOPRINT EDITOR APP

NEW

PERSONALIZED CREATIONS MADE EASY

Now, it is even easier to create personalised items through the Easy-PhotoPrint Editor app¹. Delve into the extensive template collection available for collages, calendars, stickers, business cards and ID photos! Bring your creative ideas to print in just a few easy steps.

¹ Available on iOS, Android OS, Windows and MAC OS platform. Internet connection is required. Applicable on certain printer models only.

MESSAGE IN PRINT APP

A MAGICAL SURPRISE IN EVERY PHOTO

Open up fun new ways to express yourself in photos! Embed secret animated greetings or video and web links, and send them to your family and friends. All they need to do is to download the app³ and hover their device camera above the photo to unlock the secret messages.

³ Available on iOS and Android OS mobile devices. All screen captures are conceptual.

Scan photos via Message in Print app to unveil the surprise!

PATTERN PAPER TEMPLATES

NEW

READY TO PRINT FOR ANY OCCASION

Enjoy the convenience of printing up to 45 different types of built-in patterns². You can use them for scrap booking, wrapping papers or decorative craft pieces.

² Available on TS9570 and TS8270 only.

www.canon-asia.com/pixmatown

WHERE CREATIVITY TAKES FLIGHT

Reach new heights of creativity with PIXMAtown! From business stationery templates to kiddy crafts, you can now download and print these craft projects for free. The fun and creativity never runs out!

Instead of playing on mobile devices, fun learning activity sheets are available for young children. Engage their minds with various learning moments.

Now, it is possible to customise* your own stickers too! Use our online customisation tools to create your own fun stickers!

*Customisation module is applicable for certain stickers only.

Decorating a birthday card, personalizing your luggage or labels around the home? We have them all! Simply print and stick wherever you want.

FUN WITH STICKERS

Can't get enough of stickers? There are a wide range of sticker crafts available on PIXMAtown for all ages. Stationery labels, travel stickers and also customisable stickers, the fun is shared by everyone.

DIY BUSINESS COLLATERALS

Generate and personalise your own stationery from a variety of office templates such as business cards, flyers and envelopes.

CARDS FOR EVERYONE

For every special occasion, the Cards Playground has something for everyone. Be spoilt for choice with a large collection that even includes specially designed cards by renowned artists.

WIDE RANGE OF FESTIVE CRAFTS

With free festive crafts ranging from home decorations to greeting cards, you will never run out of ideas for the holidays!

CREATIVE FILTERS

Add Special Effects to Your Photos

Choose from nine different types of creative filters⁴, including monochrome and sepia, to create your ideal photo composition when printing photos from memory cards.

⁴ Available on TS9170 only.

CRAFTING FUN FOR ALL

At Creative Park, you will discover a variety of free templates you can download to transform ordinary paper into beautiful works of art. Accessible even from your mobile devices, the fun truly never ends at Creative Park!

- Cards
- Paper Crafts
- Calendars
- Art
- Scrapbook making

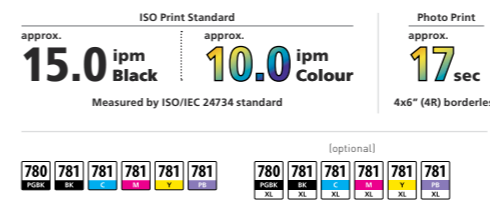

PIXMA TS9170

Premium Wireless Photo All-In-One with Large 5.0" Touch-Screen and Creative Filters

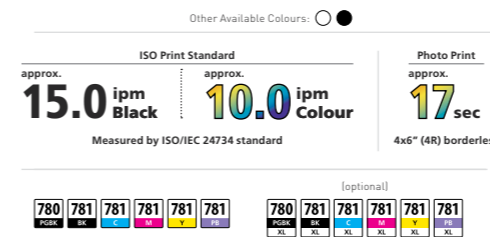

- Creative Filters: Add special colour filters when printing photos from a memory card
- Message in Print app: Embed secret messages in your photos
- Document Removal Reminder and ID Card Copy
- Direct wireless connection to smartphone
- Mobile and Cloud Printing

PIXMA TS8270

High-Performance Wireless Photo All-In-One with Large 4.3" Touch-Screen and Auto Duplex Printing

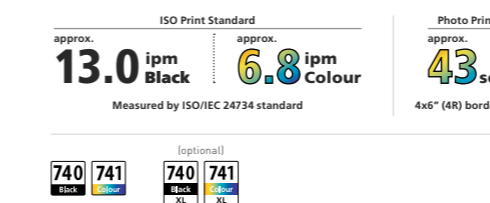

- Creative Printing: Print nail stickers, and up to 45 unique built-in patterns for use in scrapbooking, or as wrapping papers
- Message in Print app: Embed secret messages in your photos
- Document Removal Reminder
- Direct wireless connection to smartphone
- Mobile and Cloud Printing

PIXMA TS5170

Advanced Wireless Photo All-In-One with 2.5" LCD Screen and Auto Duplex Printing

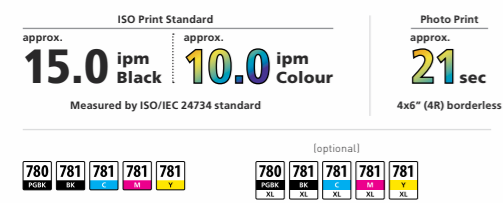

- Front/Rear paper feeding: Accommodates different paper sizes/types simultaneously
- Message in Print app: Embed secret messages in your photos
- Document Removal Reminder
- Direct wireless connection to smartphone
- Mobile and Cloud Printing

PIXMA TS9570

A3 Wireless Photo All-in-One with Large 4.3" Touch-Screen and Auto Document Feeder

- 20-sheet Auto Document Feeder
- Creative Printing: Print nail stickers, and up to 45 unique built-in patterns for use in scrapbooking, or as wrapping papers
- Message in Print app: Embed secret messages in your photos
- Document Removal Reminder and ID Card Copy
- Direct wireless connection to smartphone
- Mobile and Cloud Printing

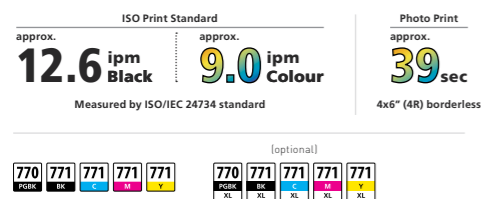

¹ Available on Android OS 4.4 and above. Firmware update may be required.
² PIXMA Cloud Link scan-related applications are only available to users that use genuine Canon ink cartridges.

PIXMA TS5070

Advanced Wireless Photo All-In-One with 3.0" LCD Screen

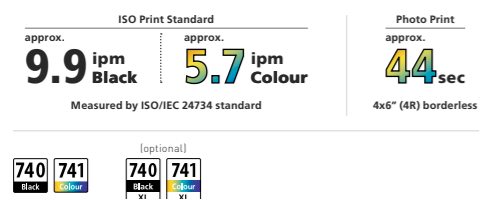

- Memory card slot for direct printing
- Message in Print app: Embed secret messages in your photos
- Document Removal Reminder
- Direct wireless connection to smartphone
- Mobile and Cloud Printing

PIXMA MG3670

Wireless Photo All-In-One with Auto Duplex Printing

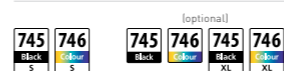

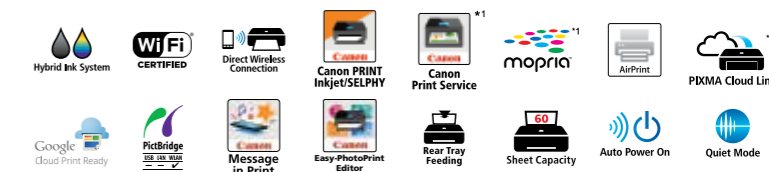

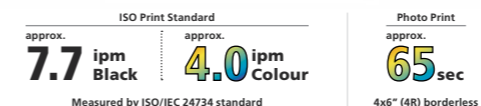

- Hybrid Ink System: Vibrant colours and crisp black text
- Message in Print app: Embed secret messages in your photos
- Direct wireless connection to smartphone
- Mobile and Cloud Printing

PIXMA TS307

Wireless Printer with Smartphone Copy

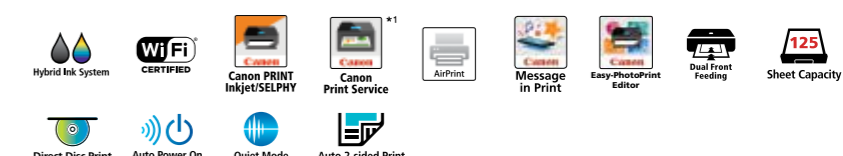

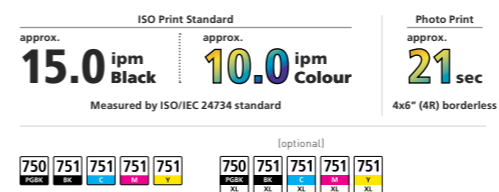

- Smartphone Copy: Easy copying of document or photo via the Canon PRINT Inkjet/SELPHY app
- Message in Print app: Embed secret messages in your photos
- Direct wireless connection to smartphone
- Supports borderless photo printing up to 4x6"

PIXMA iP7270

Wireless Photo Printer with Auto Duplex Printing

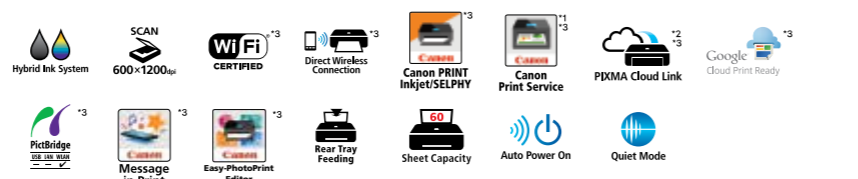

- Double front paper feeding: Accommodates two paper sizes/types simultaneously
- Mobile Printing
- Direct Disc Print

PIXMA MG3070S / MG2570S

Compact Wireless³ All-In-One with Low-Cost Cartridges

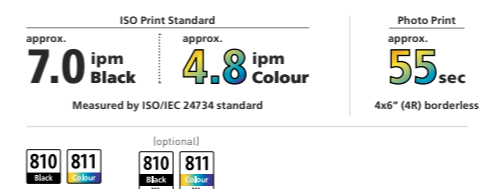

- Hybrid Ink System: Vibrant colours and crisp black text
- Message in Print app: Embed secret messages in your photos³
- Direct wireless connection to smartphone³
- Mobile and Cloud Printing³
- Auto Power ON/OFF

PIXMA iP2770

Everyday Photo Printer

- Hybrid Ink System: Vibrant colours and crisp black text
- Borderless photo printing up to A4 size

¹ Available on Android OS 4.4 and above. Firmware update may be required.

² PIXMA Cloud Link scan-related applications are only available to users that use genuine Canon ink cartridges.

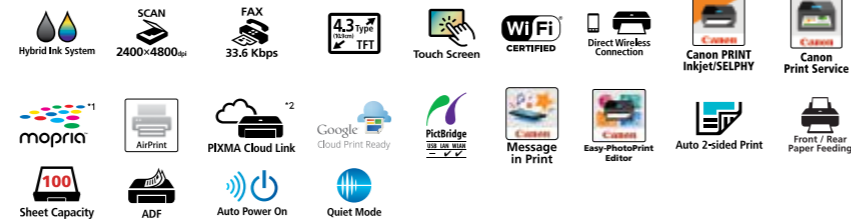

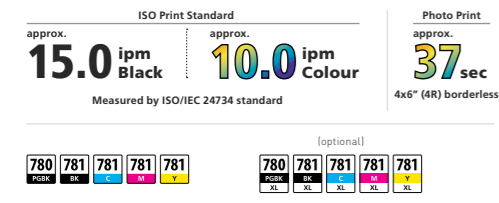

¹ Available on Android OS 4.4 and above. Firmware update may be required.

² PIXMA Cloud Link scan-related applications are only available to users that use genuine Canon ink cartridges.

PIXMA TR8570

Advanced Wireless Office All-In-One with Fax, Large 4.3" Touch-Screen and Auto Duplex Printing

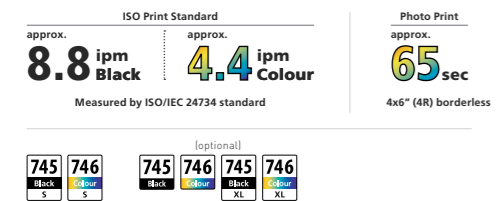

- Full touch-screen operation
- 20-sheet Automatic Document Feeder
- Document Removal Reminder
- Message in Print app: Embed secret messages in your photos
- Direct wireless connection to smartphone
- Mobile and Cloud Printing

PIXMA TR4570S

Compact Wireless Office All-In-One with Fax and Auto Duplex Printing

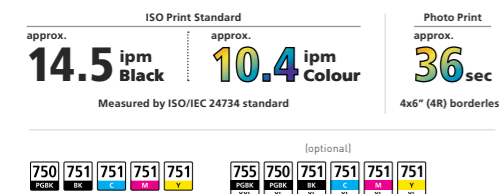

- 20-sheet Automatic Document Feeder
- Message in Print app: Embed secret messages in your photos
- Document Removal Reminder and ID Card Copy
- Direct wireless connection to smartphone
- Mobile and Cloud Printing

PIXMA iX6870

Advanced Wireless Office Printer

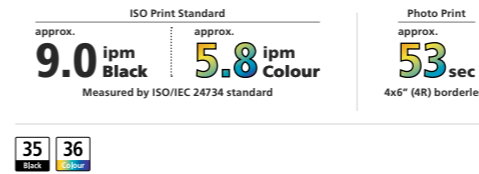

- Print up to A3+ size documents
- Print up to 800 pages (with PG-755 XXL)
- Message in Print app: Embed secret messages in your photos
- Mobile and Cloud Printing
- Auto Power ON/OFF

PIXMA iP110

Portable Wireless Printer with Easy Direct Connection

- Message in Print app: Embed secret messages in your photos
- Direct wireless connection to smartphone
- Mobile and Cloud Printing
- Optional rechargeable battery kit (LK-62)

INK EFFICIENT - G SERIES

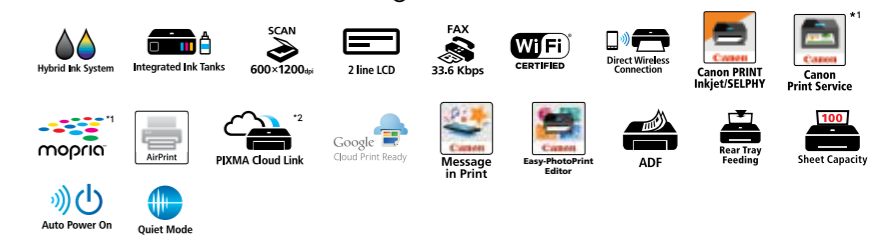

ALL-IN-ONE

PIXMA Ink Efficient G4010

Refillable Ink Tank Wireless All-In-One with Fax for High Volume Printing

- Print up to 6,000/7,000 pages (B&W/Colour)
- Compact integrated ink tank system

GENUINE INKS AND PAPER MEDIA

Designed to bring out the best in your prints, Canon's genuine inks and wide range of speciality papers come with unique qualities that achieve outstanding results for your printing needs.

CHROMALIFE100

A CENTURY OF BRILLIANT PHOTOS

ChromaLife100 greatly increases the longevity of your photos through an innovative combination of Canon Genuine Inks and Photo Papers. Not only will prints last up to 100 years under proper storage conditions, but image quality will also be greatly enhanced.

*CHROMALIFE100 PROPER STORAGE CONDITIONS

100-year life in an album.
(Criteria for estimation)
The permanence estimates presented above are made using an accelerated dark storage test and designed for silver-halide photos (ISO / FDIS18909). Samples are printed with an optical density of 1.0 (each black, cyan, magenta, yellow) and kept in a controlled environment of high temperature and 50% relative humidity. The test environment is designed to accelerate colour fading. The rate of the decrease in the optical density and the rate of yellow discolouration of the paper are measured. Finally, the results are extrapolated to the length of time that a printed image is kept in an environment of 23°C 50% RH.

30-year lightfastness.
(Criteria for estimation)
When displayed in a glass frame in a typical indoor space (estimating 500 lux / 10 hours per day) without direct sunlight. Estimates for lightfastness are made under the following test conditions: Light source: White fluorescent light 70,000 lux. Temperature: 24°C. Humidity: 60% RH. A 2mm thick glass is placed on the sample with an air gap between the glass and the sample during accelerated testing.

10-year gas fastness.
(Criteria for estimation)
Estimates for gas fastness are made under the following test conditions: Temperature (24°C) and Humidity (60% RH) are controlled in an environment of mixed gases of O₃, NO_x and SO_x. The ratio of the gases is typical to indoor air composition (O₃: NO_x: SO_x = 3:19:1) with 100 times concentration in order to accelerate fading.

(Criteria for estimation of print longevity)
Estimates for image permanence are made using the Wilhelm Imaging Research, Inc. Endpoint criteria: Accumulated illuminance causes a monochromatic / reflective optical density loss of 20-35% (figures set respectively for each colour, starting density of 1.0). Accumulated illuminance causes a difference in colour balance of yellow, magenta and cyan (each component in composite black) of 12-18%.

(Tip)
Making your printed images last longer: Light, environmental gases, high temperature and humidity can accelerate colour fading. When displaying your photographs, avoid high-intensity lighting and use glass-filtered frames. Photos stored in the dark, using archival quality albums or storage materials, will tend to last longer than photos that are exposed to light. Avoid high temperatures and high humidity to promote the image permanence of your photos.

Note:
The image permanence estimates presented above may vary depending on display / storage conditions. The expressed numbers of years estimates are the result of stimulated, accelerated tests conducted by Canon Inc., and do not represent a product guarantee.

PHOTO PRINTING

From Super High Gloss to Matte, Canon's photo papers are perfect for printing photos for special occasions, or when creating scrapbooks and cards.

PT-101
Photo Paper Pro Platinum (Super High Gloss)
· 300g/m²

· A4, A3, A3+, A2

FA-SM1
Premium Fine Art Smooth
· 310g/m²
· A4, A3, A3+, A2

STUDIO QUALITY PRINTING

Whether for photography, fine art, or digital art prints, these papers reproduce photos with outstanding detail and quality, producing replica prints as beautiful as the originals.

HOW TO CHOOSE THE RIGHT PAPER

Selecting the right paper for your printouts is essential, as an unsuitable paper media can result in a lacklustre print. Canon's speciality papers are specially treated to work optimally with your printer's ink, creating printouts with superior images and crisp, sharp text. It is therefore crucial to understand how each paper type can best complement your printing needs.

SMOOTH

Ideal for printing typography-heavy projects with definitive shapes or high black-and-white contrast. Colours stay in place and are less susceptible to "bleeding", delivering a more crisp and vivid picture.

ROUGH

Unique, canvas-like quality, rough finish papers are especially ideal for producing gallery quality, high-end prints.

BRIGHTNESS

Brighter and whiter papers will produce lighter printouts; while a duller paper will create prints with muted tones.

THICKNESS / WEIGHT

This refers to durability or amount of ink that paper can hold before document integrity is compromised. Thinner and lighter papers are recommended for quick prints and rough drafts, while thicker and heavier papers are good for photos, crafts, and scrapbooks.

MATTE

Matte papers are great in preventing light reflections or fingerprint smudges often seen on glossy papers, making it especially ideal for scrapbooking projects, cards and more.

SEMI-GLOSSY

Semi-glossy finish reduces issues associated with glare, dust and fingerprints, and is suitable for everyday photo frames or printouts with a matte border.

GLOSSY

Glossy finish paper offers outstanding resolution, colour range, and durability. It's excellent for portfolios, photo albums, and prints for plastic and glass displays.

HIGH GLOSS

High gloss paper produces a studio finish with exceptionally vivid colours, great contrast of light and dark, as well as high paper durability. This finish is more susceptible to fingerprint smudges and glares under harsh lighting due to its glossy finish.

CREATE, PRINT, STICK!

Cut it up, paste it down or tag it on!
Now, you can create your favourite sticker crafts for all parties and occasions. Simply print and paste as a useful everyday essential or accessory to match your wardrobe.

PARTY PLEASER

PS-108 Photo Stickers are perfect for parties, scrapbooking, decorating office stationery and more. Packed in sheets of 16 thumbnail-size stickers, you can also print 16 different thumbnails at once, within a single sheet.

THE HOUSEHOLD ESSENTIAL

PS-308R Removable Photo Stickers are here to make organising more efficient and fun! Designed with fabric finishing, they are versatile and can be reused after peeling off.

FOR MOMENTS & REMINDERS

PS-508 Magnetic Photo Stickers let you customise your own photo magnets. Keep happiest moments close to you. Simply print and stick them on your refrigerator, white board or any other metallic surfaces at home.

FOR WANDERLUST MEMORIES

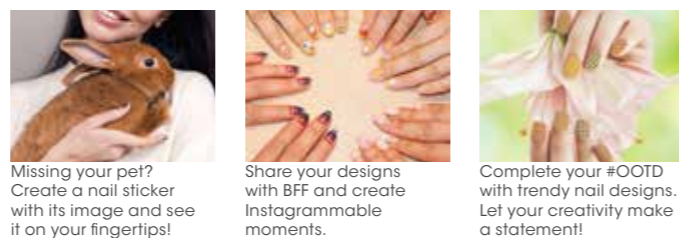

PS-208 Free-cutting Photo Stickers make photo albums and scrapbooking even more fun. Feel free to cut and personalise your photo stickers based on the theme of your craft. Plus, every print is now a sticker so you can now journal your travels easily without the use of glue!

NAIL STICKERS CREATOR APP NEW

Be your very own Nail Artist

Missing your pet? Create a nail sticker with its image and see it on your fingertips!

Share your designs with BFF and create Instagrammable moments.

Complete your #OOTD with trendy nail designs. Let your creativity make a statement!

Ever wanted a certain nail design but not finding what you are looking for? Now, you can create your original nail art with Canon Nail Stickers Creator app¹! Choose from the available templates in the app or create a new design and print² it out. Visit <https://asia.canon/consumer/stickers> to find out more!

¹ Available on Android OS 5.1 and above, iOS 10 or later.
² Nail sticker printing is available on TS9570 and TS8270 only.

BENEFITS OF GENUINE INK

HIDDEN COSTS OF INFERIOR REFILLS

Inferior quality inks can damage your printer! Third party inks can cause colours to fade faster, or papers to curl due to incompatibility. Canon Genuine Inks are designed to produce brilliant and lasting prints.

LASTING MEMORIES

It may sound a little bizarre but it is absolutely true your photos can last up to 100 years*! ChromaLife100 per to produce brilliant photos that can be preserved for ages.

*Under proper storage conditions; visit www.canon-asia.com for details.

MADE TO IMPRESS

Want superior quality photos with vibrant colour and sharp details? With Genuine Canon Ink and Photo Paper, you can easily do so! Be it a business presentation, gift or just a keepsake, you're guaranteed to impress.

THE SECRETS TO SAVING INK

CHOOSE LOWER QUALITY SETTINGS WHEN PRINTING DOCUMENTS FOR PREVIEW

Select the lowest quality setting, or opt for "Grayscale Printing" when the output is only intended for review and not filing. Particularly when the original image files are PDF text or Microsoft Office formats, the grayscale option will direct the printer to use only Pigment Black ink for lines and text.

USE BLACK CARTRIDGE ONLY MODE*

Some printers such as MG3070S or E470 will allow you the option of using "Black" ink cartridge for printing. This "shuts down" the use of colour ink cartridge during printing.

*Colour ink may still be used during printer maintenance operations.

CREATING DOCUMENTS WITH "INK SAVING" FONT TYPES

Switching to a different font also helps in long term savings. Arial may be the default font for standard Office documents, but thin fonts like Century Gothic, Calibri, Courier and Times New Roman are highly readable while minimising ink usage.

Specifications are subject to change without notice.

*1 Ink droplets can be placed with a pitch of 1/9600 or 1/4800 inch at minimum.
 *2 Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO / IEC 24734. Photo print speed is based on the default setting using ISO / JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used, etc.
 *3 Paper types NOT supported for borderless printing are as follows: Envelope, High Resolution Paper, T-Shirt Transfer and Photo Stickers.
 *4 Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard. Increasing the scanning resolution will limit the maximum possible scanning area.

*5 Document Size: Max. copy area of 203.2 x 277.3mm (with 16.7mm bottom print margin)
 *6 Copy speeds are the average of sFCOT and sESAT, ISO / IEC 29183. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm-up time.
 *7 The functions available with Bluetooth communication of this application are not guaranteed on all Android smartphones. (Even if your smartphone meets the above operation requirements, Bluetooth communication may not be possible depending on the model of your smartphone)
 *8 Declared yield value in accordance with ISO / IEC 24711 (for A4 size) using ISO / IEC 24712 test file, and ISO / IEC 29102 (for 4x6" size) using ISO / IEC 29103 test file. Values obtained by continuous printing.
 *9 Estimated Supplemental Yield.
 Note: All printers work in Operating Environment of Temperature: 5 - 35°C; Humidity: 10 - 90 % RH (No dew condensation). Recommended Environment of Temperature: 15 - 30°C; Humidity: 10 - 80 % RH (No dew condensation). All printers work in Storage Environment of Temperature: 0 - 40°C; Humidity: 5 - 95 % RH (No dew condensation).

Specifications are subject to change without notice.

¹Ink droplets can be placed with a pitch of 1/4800 inch at minimum.
²Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734.
 Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer.
 Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.
³Paper types NOT supported for borderless printing are as follows: Envelope, High Resolution Paper, T-Shirt Transfer, Photo Stickers.

⁴TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager that comes with the operating system.
⁵Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.
⁶Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183.
⁷ADF copy speed is the average of ESAT in General Performance Test for the default simplex mode, ISO/IEC 24735, excluding time to copy the first set. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm-up time.

⁸Black & white document fax transmission speed is based on default setting using ITU-T No.1 chart. Colour document fax transmission speed is based on default setting using Canon Colour Fax Test Sheet. Actual transmission speed may vary depending on document complexity, fax settings at receiving end, and line conditions etc.
⁹Page count is based on ITU-T No.1 chart or Canon FAX Standard Chart No.1.
¹⁰The functions available with Bluetooth communication of this application are not guaranteed on all Android smartphones. (Even if your smartphone meets the above operation requirements, Bluetooth communication may not be possible depending on the model of your smartphone)

¹¹Declared yield value in accordance with ISO / IEC 24711 (for A4 size) using ISO / IEC 24712 test file, and ISO / IEC 29102 (for 4x6" size) using ISO / IEC 29103 test file. Values obtained by continuous printing.
¹²Estimated Supplemental Yield.
¹³Black ink is not used when printing under this condition. However, a minimal amount of black ink is used for maintenance purpose.
 Note:
 All printers work in Operating Environment of Temperature: 5 - 35°C; Humidity: 10 - 90 % RH (no dew condensation).
 All printers work in Storage Environment of Temperature: 0 - 40°C; Humidity: 5 - 95 % RH (no dew condensation).

Specifications are subject to change without notice.

*1 PPM print speed is based on the highest speed settings using Canon standard patterns on A4 plain paper.
 *2 Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734. Document print speeds are the averages of FPOT in Office Category Test for the default simplex mode, SO / IEC 17629:2014. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.
 *3 TWAIN driver (ScanGear) is based on the TWAIN specifications V1-9 and requires the Data Source Manager that comes with the operating system.
 *4 Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard. Increasing the scanning resolution will limit the maximum possible scanning area.
 *5 ADF continuous PC scan speed is determined from the time spent for scanning of multiple sets of the test pages that take more than 30 seconds after first set of scanning. The test charts (consist of 4 pages) are printed by the device for testing and used for measuring ISO/IEC24735. Scan speed may vary depending on system configuration, interface, software, scan mode settings and document size and use frequency etc.
 *6 To prevent overheating of the Auto Document Feeder due to high volume copy or scan tasks, the printer will occasionally stop for a number of seconds after every scan. The length of the waiting period varies according to scan settings. Under the printer's default settings (300dpi, colour), the printer will automatically enter the "waiting mode" once approximately 80 sheets of paper have been loaded continuously into the ADF over a short period of time.
 *7 Copy speeds are the average of sFCOT and sESAT. ISO/IEC 29183. ADF copy speed is the average of ESAT in General Performance Test for the default simplex mode, ISO/IEC 24735, excluding time to copy the first set. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm-up time.

*8 Black & white document fax transmission speed is based on default setting using ITU-T No.1 chart. Colour document fax transmission speed is based on default setting using Canon Colour Fax Test Sheet. Actual transmission speed may vary depending on document complexity, fax settings at receiving end, and line conditions etc.
 *9 Page count is based on ITU-T No.1 chart or Canon FAX Standard Chart No.1.
 *10 The Monthly Duty Cycle value provides a basis for comparison of product robustness in relation to other Canon inkjet devices, and does not refer to the actual maximum image output per month.
 *11 Acoustic Noise is measured based on ISO7779 standard.
 *12 Typical Electricity Consumption (TEC) value: TEC value was calculated assuming the unit will be constantly switched among operational, sleep and power-off modes for 5 days, and that it will be either in sleep or power-off mode for the remaining 2 days within the same week. TEC value is calculated by Canon on their own accord using TEC measurement procedure regulated in International ENERGY STAR Program.
 *13 Declared yield value in accordance with ISO / IEC 24711 [for A4 size] using ISO / IEC 24712 test file. Values obtained by continuous printing.

Note:
 All printers work in Operating Environment of Temperature: 5 - 35°C; Humidity: 10 - 90 % RH [no dew condensation]. Recommended Environment of Temperature: 15 - 30°C; Humidity: 10 - 80 % RH [no dew condensation]. All printers work in Storage Environment of Temperature: 0 - 40°C; Humidity: 5 - 95 % RH [no dew condensation].
